INDIAN CUISINE

RESTAURANT AND TAKE-AWAY

Indian Cuisine has now become a new innovation. Much thought has been given in designing this restaurant to ensure the classic theme of the food is enhanced by creating suitably modern atmosphere.

Indian cooking is an art derived over the centuries from a variety of sources, factors such as religion, health customs and even climatic conditions have played their part. Meal times in Indian households are like ceremonial occasions. The food is a gift from the Deity and should be prepared with due respect.

Spices have medicinal as well as antiseptic properties. Our Chef at Rajah has taken great care to preserve these qualities to prepared food from the Subcontinent. Some of the dishes are cooked with our own recipes and cannot be found elsewhere!
